

Quantitative traits		Categorical traits		
Trait type	Traits	Trait type	Traits	Categories
Vegetative	Plant height (m)	Vegetative	Lifepan	Short-lived, perennial
Vegetative		Vegetative	Life form	Herb, shrub, tree
Floral	Flower width (mm)	Floral	Flower shape	Brush, campanulate, capitulum, open, papilionaceous, tube
Floral	Flower length (mm)	Floral	Flower symmetry	Actinomorphic, zygomorphic
Floral	Inflorescence width (mm)	Floral	Nectar	Presence/absence
Floral	Style length (mm)	Reproductive	Autonomous selfing	None, low, medium, high
Floral	Ovule number/flower	Reproductive	Compatibility system	Self-incompatible, partially self-compatible, self-compatible
Floral	Flowers/plant	Reproductive	Breeding system	Hermaphrodite, monoecious, dioecious
Floral	Nectar (μ l)			
Floral	Nectar (mg)			
Floral	Nectar concentration (%)			
Floral	Pollen grains/flower			
Reproductive	Autonomous selfing (fruit set)
