

Quantitative traits	Qualitative traits	
	Traits	Categories
Plant height (m)	Lifepan	Short-lived Perennial
Flower width (mm)	Life form	Herb Shrub Tree
Flower length (mm)	Flower shape	Brush Campanulate Capitulum Open Papilionaceous Tube
Inflorescence width (mm)	Flower symmetry	Actinomorphic Zygomorphic
Style length (mm)	Nectar	Presence Absence
Ovules per flower	Autonomous selfing	None Low Medium High
Flowers per plant	Compatibility system	Self-incomp. Part. self-comp. Self-comp.
Nectar (μ l)	Breeding system	Hermaphrodite Monoecious Dioecious
Nectar (mg)		
Nectar concentration (%)		
Pollen grains per flower		
Autonomous selfing (fruit set)
